21:00 - 21:30

11210CS460200 Group 23 Meeting Minutes

Topic	Peer Review Reply
Place	Discord Voice Chat
Agenda	<ol style="list-style-type: none">1. Reply peer review together2. Discuss about our dataset collection
In attendance	All present
Task Assigned	<p>游松澤, 曾柏勳: collecting datasets</p> <p>楊立慈, 賴允中: data visualization</p> <p>游松澤: researching related works</p> <p>蕭以勝: designing model architecture</p>
Next meeting	<p><u>Date:</u> 11/5</p> <p><u>Time:</u> 9 p.m</p> <p><u>Objective:</u> Keep working on phase3 (naive implementation of our designed model)</p> <p><u>Location:</u> Discord Voice Chat</p>
<div>Meeting Summary:</div> <ol style="list-style-type: none">1. Review proposals together and revise our original thoughts.2. Discuss what exactly we want to train and what we want:<ol style="list-style-type: none">(1) We discuss that whether we want to mix different pitchers as our datasets and train a single model or individually train different model with different pitcher. Due to different pitchers may have really distinct habits and pitching style, we don't think it is a good idea to mix it together and we think it will lead to a really bad performance.(2) We also do some research to find where to get weather dataset since it is not in MLB statcast official website. We end up with finding a website called Swish Analytics (link: https://swishanalytics.com/mlb/weather).
